## Baby's First 9 Months: Little Moments, Big Impact

**Building a strong developmental foundation through daily interactions  
(5 session series)**

**For parents & caregivers with infants ages 0-9 months**

This 5-week series explores how everyday interactions in your baby's first 9 months shape their developing brain. Through simple activities like playing, reading, and talking, you'll lay the foundation for lifelong learning and emotional health.

### You'll gain:

- Practical tools for your daily routine
- Understanding of key developmental milestones
- Confidence as your baby's most important teacher

Whether it's your first baby or you're growing your family, this series celebrates the power of connection and responsive care from the very beginning.
