

stretcher series 7500

trauma / transport stretcher

Pedigo's 7500 Series Stretcher allows for the transfer of patients easily and comfortably with a load capacity up to 750 pounds. Superior stability, mobility, and braking capabilities make the 7500 versatile for all your department needs such as OR, ED, PACU, Patient Transportation, Radiology or Cath Lab.

RAIL SYSTEM

Full length stainless steel side rails feature integrated push-pull handles with latch releases located at all four corners of the stretcher. Easy one-handed operation. No hinges, mechanical connections or plastic couplings to trap debris or fluid. Easy to wipe clean and disinfect.

O_2 TANK HOLDER

Pedigo's ergonomic Quick-Release O_2 Tank Holder is side mounted and conveniently located under the patient surface to reduce caregiver bending.

(US Patent 7,865,984 B2)

ZERO TRANSFER GAP

Tuck-Away side rails allows the caregiver to position the 7500 Series Stretchers flush with the bed for a zero transfer gap and easier patient transfer. No expensive or cumbersome transfer devices are required.

HYDRAULIC PEDALS

Hydraulic Foot Pedals are located on each side of the stretcher within the patient care zone. Color-coded pedals and function graphics are quickly and easily understood.

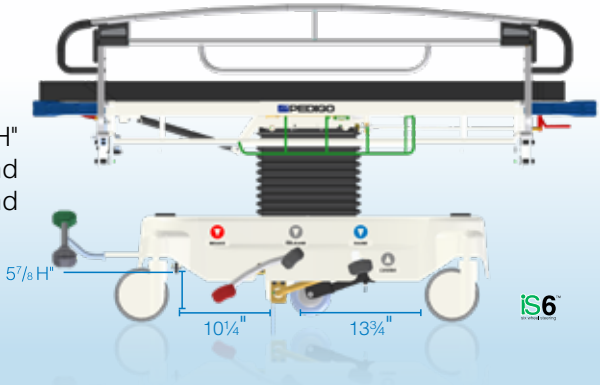

COLUMN SUPPORT:

Sturdy steel column with single hydraulic lift cylinder design uses sixteen precision ball-bearings to smoothly raise and lower the patient.

PATIENT LIFTS

The 7500 Series Stretcher has 5⅞H" of clearance between floor and cowling to easily accommodate and utilize patient lifts.

SIX WHEEL STEERING

The two Instant Steer wheels are centered directly under the chassis for increased control and maneuverability. Dual ball bearing wheels feature a softer wheel tread for improved grip and traction.

STANDARD FEATURES

- 750 lbs. weight capacity
- **IS6™** Instant Steer 6 Wheel Steering
- Side Rails - dual release stainless steel glide & tuck
- Integrated push/pull handles
- Center column design with precision ball bearings
- Quick-Release O_2 Tank Holder (US Patent 7,865,984 B2)
- Dual Trendelenburg assist cylinders (positive/negative - pneumatic)
- Mechanical Level Lock
- Pneumatic assist fowler 600N (135#) force
- Dual side-mounted hydraulic foot pedals
- Brake & Steer activated foot pedals
- Four corner IV pole receptacles
- Four restraint strap positions
- Full PVC perimeter bumper
- 8" easy mobility casters
- Latex-free
