

# ECONOMIC SUSTAINABILITY AWARD

---

## **Sustainable jobsite and office practices lead to Sustainable Business of the Year 2018 Award!**

On Thursday, September 13, 2018 the Toledo Lucas County Sustainability Commission presented Lathrop with the Economic Sustainability Award.

Several best practices led to this award including our waste tracker system that tracks the waste which is diverted from each our project sites. As an example the ProMedica Generations Tower project has a 92.7% Diversion Rate, meaning they have reused or recycled this percentage of construction waste and diverted it from the landfill.

Lathrop project trailers are also set up with electronic filing for construction documents, energy efficient appliances, recycling program for batteries & light bulbs, low flow faucets, waterless urinals and motion sensor lighting.

**WAY TO GO LATHROP STAFF!**
