

Come Shop June 17!

The Thrift Shop will be open for shopping again on June 17, but with many mandatory safety precautions in place. Please read the following information thoroughly so you will be familiar with the precautions both you and our staff will need to take when shopping at the Thrift Shop. Please be respectful of these guidelines and other people's space.

ALL CUSTOMERS MUST WEAR MASKS

- In order to comply with state, local, and Beverly Bootstraps guidelines, customers will be allowed in the shop in a limited capacity. No more than 50 customers will be allowed into the shop per hour. Shoppers will be allowed to enter on an hourly basis starting at 10:00 am. Once inside, shoppers will be allowed one hour to shop. Entry to the shop will happen hourly: 10:00, 11:00, 12:00, and so on until 3:00 pm.
- Upon entry, customers must use the hand-sanitizing dispenser set up at the shop entrance. Customers will follow the traffic flow set up inside the shop to allow for six-foot distancing. Hand-sanitizing dispensers will be available throughout the shop for customer use.
- No reusable bags will be allowed until further notice.
- Shopping carts will be available. Thrift Shop Staff will disinfect carts on a regular basis.
- Dressing rooms will be closed until further notice.
- Trying on jewelry (particularly earrings) is prohibited. Clear vinyl curtains will be hung from the ceiling above glass jewelry cases to protect both customers and staff.
- Prior to lining up for the register, customers will remove clothing from hangers and place them in designated bins. (All hangers will be disinfected for future use).
- Registers will be cordoned off and clearly labeled, allowing for six feet between customers in line.
- A manager will direct customers to the next available register. Plexi-glass shields will be set up in front of the registers to protect both customers and staff.
- Credit card machines will be wiped down throughout the day.
- The goal is to keep everyone safe while working and shopping by adhering to safety guidelines from disinfecting shop areas consistently, to setting timers to remind staff to wash hands, to recorded announcements regarding social distancing, to one-way traffic flow throughout the shop. Thank you!
