

Olympia Farmers Market Composts!

Farmers Market Restaurant Compost Program

Composting helps the Market reduce waste, save money and improve our environment.

Compost food waste, plant material, paper hand towels and napkins.

Steps to Success

1. Post the accepted compost flyer inside your stand for staff to see.
2. Put food waste and hand towels in a collection container that works for you.
3. Empty into the green compost dumpster in the garbage blind when full and at the end of the day.

Questions? Ask Market Staff or the City of Olympia at 360.753.8752 or sorman@ci.olympia.wa.us.

Thank you!

1 Collect food waste inside your stand.

2 Empty into the green dumpster in the garbage blind.

3 City will empty it every Monday.
