

## Internet outages costing you sales or reducing employee productivity?

In today's connected world, even an hour of downtime each month can cost your business thousands of dollars in lost sales and reduced employee productivity, let alone the impact it has on your customer satisfaction and brand reputation.

### Quick Fact Track

- 33% of US organizations report monthly downtime due to network outages.
- On average, 30 minutes of downtime cost companies \$110 in lost revenue.

### Why risk it?

For just dollars a day, Sierra Wireless Managed Connectivity Solutions provides the only LTE connection with an SLA, providing peace of mind with automatic failover guaranteed. Redundant circuits eliminate single points-of-failure by redirecting traffic for load-balancing or backup. Our always-on intelligent failover system supports T-1, DSL, cable and broadband connections protecting your sales, reducing your costs and minimizing the risks associated with outages. Connections are continuously monitored by our proprietary connectivity management system, alerting you to problems with your primary
