SPEAKERS

Jay Haynie, OD, FAAO

Dr. Jay M. Haynie graduated from Pacific University College of Optometry in 1992 and completed a residency at American Lake Veterans Hospital in 1993, where he focused on the diagnosis and management of ocular disease. He served as the Executive Clinical Director of Retina and Macula Specialists until 2018, when he joined Sound Retina in Tacoma, Washington. He is an adjunct clinical professor at Pacific University College of Optometry, a Fellow of the American Academy of Optometry and a member of the Optometric Retina Society. He is a sponsor of a fourth year internship for Optometry students in his private practice. He is a clinical investigator and continues to be involved in clinical studies regarding retinal disease management, both as a principal and sub-investigator. He is a published author and has become a nationally recognized speaker on advances in technology and the management of retinal disease.

Yin Tea, OD, FAAO

Dr. Yin C. Tea received a Bachelor of Science in Chemistry from UCLA, a doctor of optometry degree from Southern California College Of College of Optometry and Residency training in Binocular Vision and Vision Therapy from the SUNY College of Optometry. She is currently an Associate Professor and the Chief of the Pediatric and Binocular Vision Service at Nova Southeastern University. She teaches the Strabismus and Amblyopia Treatment and Diagnosis course and founded the specialty Strabismus and Amblyopia Service at The Eye Care Institute of NSU. She is the site PI for the multi-centered NEI-funded Pediatric Eye Disease Investigator Group (PEDIG) research studies.

Seema Nanda, OD

Dr. Seema Nanda practices alongside a corneal specialist at the Texas Eye Institute, a hospital-based ophthalmology group in Houston. At the University of Houston College of Optometry (UHCO), she has served as an adjunct professor, instructing students in the Cornea & Contact Lens Clinic and Medical Laboratory Procedures course. At UHCO’s iJoy Vision Center, she provides patient care in the pre- and post-op management of LASIK, Corneal Crosslinking, and ICLs (Implantable Collamer Lenses). She attained her Doctor of Optometry from the Indiana University School of Optometry and completed her training at the Bascom-Palmer Eye Institute in Miami. She has also served as a Chief Examiner on the National Board of Examiners in Optometry. She actively participates in medical missions, both locally and internationally, by performing eye care and glaucoma evaluations as part of her profound interest in community service. Her areas of interest include pre- and post-op care of refractive, cataract, and cross-linking surgeries, the management of dry eyes, specialty contact lens designs, and the treatment of glaucoma.
