Coronavirus Update: Telebriefing for Restaurants, Breweries and Wineries Public Health Officials Provide Update on Novel Coronavirus (COVID-19)

The alarming increases in cases that we continue to witness is not due to random events out of our control. Many of these cases could have been prevented if individuals and businesses followed the straightforward public health measures of masking, distancing and infection control. We are at the most difficult moment in the pandemic. The virus is running rampant through almost every part of our county and we must all act now so we don't see more people dying from COVID-19, and our health care system seriously stressed in the following weeks. Public Health will conduct a telebriefing to update you on the latest COVID-19 response, discuss the temporary Safer at Home Order and answer your questions and listen to your feedback.
