Several years ago I became a customer of Touchstone Crystal by Swarovski. YES, that's correct. You read that right...Swarovski. Swarovski has been around for over 125 years and they are the creator of the most beautiful crystal in the world, Swarovski crystal. Because I loved the jewelry SO much, I decided to join as a sparkle glambassador and share this beauty with others!

Touchstone Crystal by Swarovski is the entrepreneurial division of Swarovski. We have our own designers. You won't be able to purchase our designs in Swarovski stores, only through a glambassador like me. What's even better? Unlike the Swarovski shops that are spread out across the world, over 50% of our line is under \$50 and 90% of our line is under \$100, yet we are the same great quality with the same limited LIFETIME guarantee.

Every item you purchase earns you an entry into my monthly customer drawing, you will have the chance to win our green Glimmer necklace (\$99 value). **Also, I will donate 10% of my sales from the Notre Dame Community back to this event. AND, if you book a virtual party with me in November, I will donate 5% of my sales from your party to Notre Dame and you will earn some incredible hostess benefits. November is DOUBLE hostess dollars! Reach out to me to schedule!**
