We are a mother, daughter team that started our boutique with crochet and knitted items in 2017. In 2019 we expanded to macramé as well as incorporating botanicals and weaving techniques to bring even more life and color to our pieces. In 2020 we began including gold and silver jewelry we know you'll love!

Our inspirations are drawn from our rich Mexican culture which further embodies and influences our unique style. We do all of this from our small townhouse in Bridgeport, Connecticut. We love sharing our journey and experience living and creating from our metropolitan home.
