SCENTSY? WHAT IS THAT?

Scentsy is a safe alternative to candles, so no wick, soot, or flame. Scentsy uses a low - watt light bulb or heating element that slowly melts Scentsy wax bars down.

Many ask if the wax is safe, well it is! The wax is made from food - grade paraffin, so it is non - toxic and safe for children and pets.

Scentsy does have additional products, including: Laundry Care, Cleaning solutions, Kids products and more.
