

Trailmaster 200E XRX

The TrailMaster 200E XRX is an upgrade from our popular 150XRX, now with a bigger 169cc GY6 engine equipped with EFI. With fuel injection, users don't need to worry about starting in cold weather or at high altitudes; furthermore, users don't need to fix or replace carburetors after periods of inactivity with the unit. Take on the toughest terrain with the 200E XRX with premium features including polished aluminum wheels, a digital speedometer/odometer, led headlights and LED light bar and a bikini sunshade top! Underneath all that glitz is a rugged, tubular steel frame with top brush guard, side rails and an enclosed belly pan to take the abuse of harsh off-roading.

There's enough horsepower to haul loads on the rear utility rack or to pull light-duty trailers with the included ball hitch. Driving is effortless and fun with electric start, rack-and-pinion steering, reverse shifting, dash-mounted controls and dual sport bucket seats with 5 point harnesses. Driver's seat adjusts from 36 to 43 inches to the pedals while tilt steering tilts. Center and side mount mirrors, F&R hydraulic disc brakes, high/low beam headlights and turn signals add an extra measure of safety. The dual A-arm front and swing-arm rear suspension system provides excellent handling and maneuverability. The 200E XRX is built for speed and fun!

We have this model in red and blue

200E XRX Specifications

Engine Information

- EPA certificated
- Engine type: 4-stroke, single cylinder, air cooled
- Displacement: 168.9cc
- Max HP: 11.1hp/8000rpm
- Max torque: 8.1 lb ft/6000rpm
- Bore x stroke: 2.4x2.28 inches
- Max speed: 43 mph
- Climbing ability: 18 degrees
- Ignition: ECU
- Starting system: Electric
- Battery: 12V 10Ah
- Engine oil: SAE 15W-40
