Healthy Relationships & Sexual Health Education

ODC is happy to offer a new service!

This is an evidence-informed and trauma-informed sexuality education class for high school students and adults with developmental disabilities. Instructors have attended a three-day training and follow a one-of-a-kind curriculum developed by Elevatus Training, LLC, national leaders in the field of sexuality and intellectual and developmental disabilities. Classes can be provided face-to-face, virtually, in small groups or one-to-one. Participants will have the option of choosing between two courses or specific lessons tailored to meet their individual needs.

Healthy Relationship Education

COURSE 1

- Different Types of Relationships
- Friendships
- Communication
- Decision Making
- Moving from Friend to Partner/Sweetheart
- Internet, Social Media and Communication
- Many Roads to Relationships
