

## **Schedule for Passover 2021**

### **Thursday, March 25, 2021**

Fast of the First Born – 5:43 am – 7:57 pm

On the day before Passover, first born are required to fast, to commemorate their having been spared the fate of the first born Egyptians at the time of the Exodus. However, if one participates in the conclusion of a course of study, one may eat since refreshments follow the study session.

Bedikat Chametz – Search for the Chametz – After 7:41 pm

The search for Hametz begins. After the house has been cleaned (see Regulations for Passover Preparation), we search once again for any remnant of Hametz we may have missed. We use a candle, a feather, and a wooden spoon ... but the search can take place even without these traditional tools. This symbolizes that all the Hametz which was in the house was removed. This service can be found in any Haggadah.

### **Friday, March 26, 2021**

Biur Chametz – Burning the Chametz

We burn the Hametz that was found during the search that took place the night before. Use a large can or similar container. This ceremony should take place in the morning. This service can be found in any Haggadah. This year, since Passover begins after Shabbat, we do not recite the final nullification. All chametz not sold or otherwise disposed of should be burned before 11:59 am. We will be burning hametz in the CSFA garden at 10:30 in the morning on Friday, March 26.
