

Volunteers Needed – Get Involved with Habitat for Humanity

Habitat for Humanity is always looking for volunteers to help strengthen our community. Through the work of dedicated volunteers, Habitat brings people together to build and repair homes while creating new pathways to safe, decent, and affordable housing.

There are many ways to get involved, including:

- Assisting with home construction on the build site
- Sorting donations at the Habitat Store
- Helping process homebuyer applications
- Serving as a cashier at the Habitat Store
- Assisting with event setup and teardown
- Donating food, supplies, or financial support

Whether you have a few hours or would like to volunteer regularly, your time and talents can make a meaningful difference.

Habitat also welcomes **businesses, social groups, and community organizations** that would like to volunteer together. Group builds are a great way to give back while building camaraderie. For information about group volunteering, please contact:

Heather Mansell – hmansell@cvillehabitat.org
