DOG DAY AT THE SOUTH POOL

SATURDAY, SEPT 12th

9-11am

1. Mind the Gate When entering the pool area, use extreme caution to ensure no unleashed dogs slip out. A little extra care goes a long way in keeping all pups safe.

2. Supervision is Key While it's tempting to chat with other pet parents, always keep an eye on your dog. With so many new friends around, it's easy for your pup to get into mischief.

3. Know Your Dog If your dog doesn't play well with others, a dog day at the pool might not be the best fit. The environment can be overwhelming, so it's important to consider your dog's temperament before attending.

4. Dogs Only As much fun as it would be to swim with your dog, this event is for dogs only. With your supervision of course!
