

The Beach House restaurant, which is located next to the Holiday Inn Resort, opened on July 1st. Specializing in fresh local seafood, the BH also has home-made pizza, pasta dishes, a wide variety of craft beers on tap, and a daily happy hour. For a peek at the menu, [click here](#).

Tortuga Jack's restaurant has opened on the site where Fin's restaurant was formerly

located. Specializing in Baja Mexican food, [TJ's menu](#) includes a variety of appetizers and side dishes as well as traditional Mexican dishes. TJ's Tiki Bar, which is located on a covered ocean-facing deck, has enlivened the atmosphere of this affordable and scenic restaurant.

McGarvey's Wee Pub is now open in Jekyll's Beach Village. The Wee Pub features Irish dishes, including Shepherd's Pie, Bangers and Mash, and Irish Spaghetti. Unique appetizers and side dishes, homemade desserts, and a wide range of craft beers on tap make the affordable Wee Pub a popular addition to Jekyll's restaurants. Here's the [WP's menu](#).

Zachary's restaurant, which was located in Jekyll's former shopping center and was a longtime favorite of Jekyll visitors and residents, will be returning to the island after having closed its doors nearly a decade ago. The new location will be at the Jekyll marina, where Sea Jay's restaurant had been located. Complications in refurbishing the building that will house Zachary's has delayed the planned summer opening of the restaurant until the end of this year. Welcome home Zachary's!!

The Jekyll Island Seafood Company, which operates a well-regarded restaurant in Atlanta's International Airport, plans to open a sister restaurant adjacent to the Westin hotel. A series of snags have delayed construction of the restaurant, but, reportedly, things are nearly back on track now. Given the reported problems the Westin's high-end restaurant (called "[The Reserve](#)") has had attracting customers, one wonders about the viability of another high-end restaurant in Jekyll's Beach Village. For a hint of what the restaurant's menu may be like, [click here](#).
