2019 Clinical Integration Program Participation Requirements for Specialists

Mount Sinai Health Partners

Mandatory Requirements for 2019 Specialist CIN Participation

- 1. Care Coordination (First year only):** Sign and comply with MSHP PCP/Specialist care compact describing the expectations for bi-directional communication on mutually shared patients.
- 2. Program Engagement (First-year only):** Provide actively used email address for physician and office manager for program communications, and complete the CIN 101, CI 201 and Clinical Documentation Quality Improvement (CDQI) modules on the Mount Sinai Clinical Integration Learning Center.
- 3. Quality Performance:** Report CIN quality metrics **biannually**, which may align with MIPS submissions. Also, provide, when needed, data regarding quality metrics in value-based contracts in a timely fashion.
- 4. Practice Engagement** (both required, if requested):
 - A.** Meet with a provider engagement team member (including population health manager) as requested, up to two times per year.
 - B.** If requested, participate in the Specialist as a PCP initiative (MSSP/MA patients focus): Attest to assume PCP responsibilities or refer to a PCP for >80% of attributed MSSP/MA patients.
- 5. Privacy Training:** Complete the Mount Sinai Health System online 2019 Health Insurance Portability and Accountability Act (HIPAA) privacy training module on the Mount Sinai Clinical Integration Learning Center.
- 6. Patient Access:** Commit to (1) 24/7 access for patients to speak to and/or electronically communicate with a provider representative, and gain instructions for off-hours access that includes urgent care; (2) goal of providing practice appointment within 7 business days for urgent appointments, especially for existing patients of the practice. Attest to MSHP policy or provide written policy for review by an MSHP Director or IPA Committee.
- 7. Promoting Interoperability:** Install (or have under contract) a MIPS-Certified EMR system by 12/31/19. (If you meet MSHP's quality reporting requirements by submitting a feed from your EMR, you may be exempt from obtaining a MIPS-Certified EMR.)
