

Frontline Excellence in Ambulatory Chronic Disease Management

An accredited CME Event sponsored by Mount Sinai Health Partners and the Icahn School of Medicine at Mount Sinai

Module 1: Diabetes and Heart Failure

November 11, 2020 | 6:00 – 8:00 pm | Live via Zoom

Who should attend?

Primary care physicians, cardiologists, endocrinologists, nurse practitioners, physician assistants, pharmacists, certified diabetes educators, and registered nurses

Course Description

The goal of this CME activity is to provide physicians and their clinical staff education on how to successfully manage heart failure patients and diabetes mellitus patients in the ambulatory setting, following best practices for classification, medication management, and multi-disciplinary collaboration.

Learning Objectives

At the end of this CME activity, participants should be able to:

- Outline optimal ambulatory management and medication considerations for each disease state (diabetes and CHF)
- Recognize the value of multidisciplinary teamwork to optimize disease management for diabetes and CHF
- Understand management consideration for CHF sub-types (HFrEF, HFpEF, RHF)
- Outline appropriate usage and considerations for diabetic medications
