

# Mount Sinai Health Partners **Home Health Care Team**

## **Connects Your Patients with Home Health Care Services**

### **Let us help you!**

Our specialized team of nurses understands the nuances of home health, including benefit design, and are here to offer you support in both evaluating and setting up your patients with appropriate and affordable services in their homes. Please refer your patients in need, and we will complete a patient assessment and coordinate home care as needed, notifying you of the start of care date.

### **Who should you refer?**

**Any patient in need of support**, including those that need:

- Nursing services
- Disease management
- Physical/speech/occupational therapy
- Assistance with activities of daily living
- Hospital discharge assistance
