2021 BERNINA
Software Inspirations Schedule

Thursday at 10:30 a.m. OR Saturday at 10:30 a.m.

$125.00*

(*$150.00 if your software wasn't purchased at Bits 'n Pieces)

Dive into Embroidery Software 8 in 2021!
V8 is the perfect companion to your embroidery machine.
12 Lessons will be offered. Ten virtual OR hands-on lessons will guide you through
many of the features of BERNINA Embroidery Software 8.2.
See page 2 for 10 of the topics.
Each lesson contains a video featuring a demonstration
and an explanation of software techniques with step-by-step handouts.
Files will be distributed before the lesson.
6 Lessons developed and presented by Debbi Lashbrook,
2 Lessons, developed and presented by Julie from Bits 'n Pieces, Wayne, MI
2 Lessons, developed and presented by Rachel from BERNINA Oklahoma City, OK
and 2 Lessons, developed and presented by Marlys from
Margie's Sew Much Fun, Crestview, FL

2021 **BERNINA** Software Inspirations Topics

Fun with Decorative Stitches

There are many options for using and creating decorative machine stitches in our Version 8.2 software. Learn to add your favorite machine stitches to your software decorative stitch library.

Color PhotoStitch

Let's go back to the basics with Color PhotoStitch. Learn about preparing to take the right photograph, editing the photograph and creating with PhotoStitch.

Creating Fringe

Learn how to create fringe to embellish your embroidery

3D Embroidery

BERNINA version 8.2 software offers many 3-d options. We'll work with couching, a few versions of trapunto, and other 3-d embroidery techniques.

Applique

Compare and contrast the two applique tools in software. Learn quilt applique methods as well as those that will tame more time to create.

Blending Colors

Investigate different ways to blend thread in BERNINA Embroidery Software.

Digitizing for Trims

Learn how to create your own pattern runs in the software.

Embroidery Library

The ins and out of the BERNINA Embroidery Library. View, open, organize, convert, manage and print designs using this Library that's built into our version BERNINA 8.2 software.

Blackwork Run

Blackwork Run is for more that single outlines. We'll will explore different options for using the wonderful tool.

Digitizing In the Hoop Designs

In the Hoop Designs are always fun to make (and, of course, perfect every time!) We'll work through a few different techniques. Plus, you'll the basics for creating your own In the Hoop Projects.
