

\$200,000 Awarded to  
Farms to Food Banks Program

We are thrilled to announce that Feeding Kentucky was recently chosen as the recipient of a \$200,000 grant from our national partner organization, [Feeding America](#). These funds will go to support our Farms to Food Banks program.

With this grant, we are expecting to be able to acquire approximately 390,000 pounds of fresh produce, 10,000 pounds of protein including eggs and various types of meat, and 3,000 pounds of dairy products, such as milk and cheese for our member food banks to distribute across the state.

These agricultural products will help to create an estimated 671,000 meals for hungry Kentuckians!
