

2018-2019 Professionalism Report from the Office of Education and Academic Affairs

We have reviewed the professionalism score for all clerkship (and critical care selective) rotations based at the principal teaching hospital and affiliate sites. All students are required to evaluate at least five faculty and five residents. We report by the Department in charge of the educational experience. We present faculty at all sites and residents at all sites with Top Box (5, 1-5 scale) Scores for the following item: *“displayed professional demeanor towards patients, their families, peers, trainees and staff” (evaluated by at least two medical students)*. We list Top Box scorers; however, we are delighted to report that except in the rarest of instances the vast majority of faculty and residents received mean scores above 4.5.

Department of Pediatrics

Faculty RWJMS

Azubuine,Uchechi
Balachandar,Sadana
Brodsky,Richard
Chen,Deborah
Chundru,Vasudha
Craig,Vicki
Diaz,Laura
