

THE CONVERSATION YOU SHOULD BE HAVING

APRIL 14th, 2018

PASTA DINNER: 5:30PM SPEAKER: 6:00PM

MANSFIELD FIRE HOUSE

324 Main Street, Port Murray, NJ

When sending your child to school- you want to know that they will be safe. With practices like alcohol-fueled hazing rituals becoming more common in high schools, colleges and universities throughout the country– safety is no longer guaranteed.

The Warren Hills High School Project Graduation is hosting a "Dinner and Discussion" Fundraiser to provide students and parents with the knowledge necessary for students to protect themselves as they enter college. Guest speakers, Jim and Evelyn Piazza, have been committed to preventing hazing on college campuses after losing their son Timothy to such a tragedy in 2017. The Piazza's will discuss the causes and dangers of hazing, signs and symptoms of hazing in victims and how parents and students can prevent hazing incidents in their schools, clubs, sports teams and social organizations.

11.5 million high school students experience hazing each year.

.....

55% of college students involved in clubs, teams and other organizations are hazed each year.

.....

Alcohol fueled hazing rituals account for 82% of hazing-related deaths

.....
