Mine Safety Training

MSHA PART 48 INSTRUCTOR TRAINING COURSE

Participants who successfully complete the Instructor Training Course and are approved by their respective MSHA District Office will be recognized as MSHA Approved Instructors and can conduct 30 CFR Part 46/48 Health and Safety Training. Please see the pre-requisite list and class outline for additional information regarding the course.

Prerequisites Checklist

Individuals applying for MSHA Approved Instructor must have a minimum of the following:

- ☐ Be an Experienced Miner, as defined by 30 CFR § 48.2 & 22 (b) (1), (b) (2)
- ☐ Have **Three** years of verifiable working experience at a Part 48 Mine (Documentation required: 5000-23s for New Miner and Two Annual Refresher Trainings)
- ☐ Possess a verifiable and relevant level of previous training experience, especially in occupational health and safety. The training experience should have relevance to the mining industry.

In lieu of relevant training experience, MSHA's District Office may approve instructors based on:

- ☐ A verifiable and relevant academic background (associates or other undergraduate degree from an accredited educational institution) in business, education, safety, organizational behavior, etc.
- ☐ Relevant and current certification, such as CMSP, ASSE, ASTD, etc.

Prospective MSHA trainers must complete the following:

- ☐ The **Instructor Application Form**
- ☐ A resume reflecting what was submitted on the application with contact information relevant to training you delivered or received
- ☐ A MIIN (Miner Individual Identification Number) which can be obtained by following this **Link**
- ☐ The 3-day Part 48 Instructor Training Course
