
Meadowbrook Skilled Nursing Long-Term Ventilator Care

Guided by Unparalleled Expertise

- **Program Coordinator:** 20+ years of experience in ventilator management, offering personalized guidance.
- **Onsite Pulmonology:** Board-certified pulmonologists specializing in respiratory care.
- **Respiratory Therapists:** Skilled therapists providing continuous ventilator and respiratory support.
- **Nursing Staff:** 24/7 ventilator-certified RNs and LPNs trained for ventilator-dependent patients.

Advanced Technology & Care

Featuring the **Philips Respironics Trilogy 100 Ventilator** and the **Ventec Life Systems VOCSN**, both versatile systems with customizable settings for comfort and independence.

We manage:

- Invasive ventilation
- Non-invasive protocols (AVAPS, CPAP, BiPAP)

Bedside Procedures

Cutting-edge care delivered at your bedside:

- **Bronchoscopy with AmbuScope 5:** Minimally invasive diagnostics and therapy using portable technology.
- **Additional Services:** X-rays, ultrasounds, and vascular access to reduce stress transfer.

Commitment to You

- Prioritizes comfort and independence with a patient-centered approach.
- Minimize hospital visits with comprehensive onsite care.
- Led by a coordinator with over 20 years of expertise.
- Ensures optimal support with a multidisciplinary team.
- Collaborates with patients, families, and physicians for tailored care plans.
