

# KDADS CARE UPLOAD TOOL

---

**BACKGROUND:** The Kansas Department for Aging and Disability Services (KDADS) Client Assistance Referral and Evaluation (CARE) Team is announcing our new upload tool, the CARE Upload Tool, in December 2022. CARE Upload Tool is a new web-based tool to upload and share [admission, assessments, and related information safely and securely](#) with KDADS CARE Team. This tool replaces the fax machine and email system previously used for sharing admission, assessments, and related information with the CARE Team. Our developer of the Tool, Sean Robinson, modified the Tool after seeing how the Tool is being utilized. The modifications prompted the need for another training – see the training details below.

---
