

**WATCH AND DISCUSS THE FILM *SHOELACES* VIRTUALLY
VIEW JULY 15-17 AND DISCUSS JULY 19**

"Shoelaces" tells the story of a complicated relationship between an aging father and his special-needs son, whom he abandoned while he was still a young boy. Reuben's kidneys are failing, and his son Gadi wants to donate one of his own kidneys to help save his father's life. Gadi feels he finally has the chance to do something meaningful; to become a man and stand on his own. Through the film's portrayal of a relationship full of love, rejection and co-dependency, it manages to shed some light and question the importance of human life, human connection and if life is even possible without either one of them.
