Heller- Wexler Family Camps
These family camps sponsored by URJ Eisner & Crane Lake Camps
are a wonderful opportunity to experience camp.

As an adjunct to your children's Jewish education, please consider sending your children to the URJ Eisner, Crane Lake Camp and the new Six Points Sci-Tech Camps... These full-service summer camps will offer your children an unforgettable experience, which will change their lives. The camps located in the Berkshire mountains offer numerous program options for children as young at 7. Further information about camp as well as scholarships is available from the school office. We will hold a special program about camp and a representative of the camps will be with us that morning to talk more about camping and the programs offered.
