

POLICY UPDATES

SAFETY COMES FIRST

In order to ensure the safety of our members, staff and community, we are implementing safety measures:

- Health Screenings before entering the studio
- Masks are optional for fully vaccinated individuals
- Masks are required for unvaccinated individuals
- Hand sanitizer will be available throughout the studio
- Disinfectant will be available to wipe down your equipment before and after each use

FOCUS ON CLEANLINESS

We are adhering to rigorous cleaning and sanitation standards in our facility:

- Help us stop the spread of germs by committing to wiping down all equipment before and after each use
- Our staff will disinfect the entire studio with an electrostatic 360 sprayer after every class

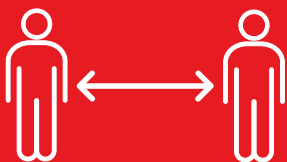

ADHERE TO SOCIAL DISTANCING

At this time, all members will still be required to maintain 6 feet of social distance while inside the studio. This will affect class capacities. The equipment will be spaced out to follow these guidelines.

THANK YOU FOR YOUR COOPERATION

We want to keep our doors open for as many members as possible. Doing so means taking safety seriously. Any member who fails to comply with personal safety and social distancing policies may be asked to leave the class.
