Introduction

At Special Programs DBA Little Lukes (hereafter referred to as Little Lukes) our primary commitment is to the children and families we serve. Our priority remains to be keeping them safe. This plan will define clear guidance for our itinerant services including special education itinerant services, speech therapy, physical therapy, occupational therapy and evaluations for young children and aligns with the regulations developed in collaboration with NYSDOH and the NYS Education Department.

The health and safety of our children, their families and our staff is our top priority. We have developed a plan that intends to ensure that children, families and employees feel comfortable and safe during services. Our reopening plan incorporates recommendations and guidance from the [Centers for Disease Control and Prevention \(CDC\)](#), the [New York State Department of Health \(NYSDOH\)](#) and the [New York State Education Department \(NYSED\)](#).

It is possible that we may need to alternate between in-person, remote services and a hybrid model of services throughout the year due to recommendations and guidance from our partnering agencies, and stay-at-home orders from the Governor. The level of infection, the spread of the virus and response to the disease in our community will be at the forefront of decision making as we move to return to in-person services.

Abby Weaver will serve as the company's COVID-19 Coordinator. She will serve as a central contact for schools and stakeholders, families, staff and other school community members and will ensure the school is in compliance and following the best practices per state and federal guidelines. Anyone with questions or concerns should contact our COVID-19 Safety Coordinator Abby Weaver at feedback@littlelukes.com or 315-529-0793.

Of course, as with every plan being developed throughout New York State, this document is fluid and will change as necessary based on guidance from the state, CDC, and NYSED and in consideration of our families and our staff. We strongly believe the services described throughout this plan are in the best interests of our students, families, staff, and community.

Communication/Family Engagement

To help inform our plan, Little Lukes has sought feedback and input from stakeholders, including administrators, staff, parents/guardians of students, local health department officials, local school districts and county officials.

Little Lukes remains committed to communicating all elements of this plan to children, parents and guardians, staff and visitors. The plan is available to all stakeholders via our website at www.littlelukes.com, and will be updated throughout the year, as necessary, to respond to local circumstances.

Little Lukes has developed a plan for communicating all necessary information to staff, families, and education partners. Little Lukes will use its existing communication modes – including our website,

social media, email, direct mailings, distribution of memos/letters, text messaging, telephone calls, virtual meetings, and socially distanced in-person conversations to support the dissemination of consistent messaging regarding new protocols and procedures, expectations, requirements and options related to operations throughout the pandemic.

Little Lukes Communication Goals:

- To encourage all children, families and staff through verbal and written communication (e.g., signage) to adhere to NYSED, CDC, and DOH guidance regarding the use of acceptable face coverings - a face mask covering the nose and mouth, when a social distance cannot be maintained.
- To provide regular updates about health and safety, scheduling, and all other information staff and families should be aware of.
- To provide information to families through a wide array of platforms including mail, email, telephone calls, text messaging, social media and website postings.
- To provide information on how families can receive technical support to assist with teletherapy.

Health and Safety

The health and safety of our children, their families and our staff is our top priority. We want children, families and employees to feel comfortable and safe. Our reopening plan incorporates recommendations and guidance from the [Centers for Disease Control and Prevention \(CDC\)](#), the [New York State Department of Health \(NYSDOH\)](#) and the [New York State Education Department \(NYSED\)](#).

The following protocols and procedures will be in place for all Little Lukes itinerant services and evaluations until new information regarding updated protocols and procedures becomes available.

For more information about how health and safety protocols and trainings will be communicated to families and staff, visit the *Communication/Family and Community Engagement section* of our reopening plan.

To ensure employees, children and families comply with health and safety requirements, Little Lukes will:

- Remind staff and family members to adhere to proper hygiene, social distancing rules, appropriate use of PPE, and cleaning/disinfecting protocols.
- Provide postcards with health screening questions and Covid safety tips for providers to distribute to families.
- Establish a communication plan for employees, and parents/guardians with a consistent means to provide updated information. This will be accomplished through:
 - Website
 - Email
 - SMS text messages
 - Phone calls or voice messages
 - Print copy memos
- Maintain a continuous log of every child's visit and include contact information for responsible adult(s) present at visit including parent/guardian, babysitter, teacher or other adult near the

child. Log all close contact with other individuals at the home, therapy site, school, or area; excluding deliveries that are performed with appropriate PPE or through contactless means.

- If a staff member, child/student, family member or anyone that had direct contact with the staff member or child tests positive for COVID-19, Little Lukes will immediately notify state and local health departments and collaborate on contact tracing efforts.

Staff Daily Health Screening

- All providers will self-screen daily for signs of COVID-19. Providers will not attend any visits if any concerns exist. The daily health screening will include a temperature check that is below 100.0°F and COVID-19 screening questions.
- Staff experiencing symptoms consistent with COVID-19, exposed in the last 14 days to a COVID-19 positive individual, testing positive for COVID-19 in the last 10 days, or experiencing a temperature greater than or equal to 100.0°F, should not enter a client's home or the workplace.
- Staff who develop symptoms consistent with COVID-19 should stay home, notify HR via email (hr@albertsgroup.net) and contact a health care provider.
- If staff feel ill during the day, they will immediately return home and monitor symptoms, notify HR via email (hr@albertsgroup.net) and contact a healthcare provider.
- For in-person service provision, consider the risk to household members; those who have weakened immune systems, over the age of 60, have chronic health conditions (e.g. heart disease, lung disease, diabetes), or other COVID-19 risk factors; for you, your family and the families you serve.

Family Health Screening Before Each Session:

- Parents are required to monitor for temperatures and symptoms prior to session.
- The service provider will contact the parent/guardian/caregiver the day of the visit by phone/email/text to ask a series of health screening questions.
 1. Does your child have a temperature of 100°F or above today?
 No Yes
 2. Does your child or anyone at home have any COVID-19 symptoms? (cough, shortness of breath, sore throat, chills, body aches, headache, loss of taste/smell, congestion, vomiting, diarrhea)
 No Yes
 3. In the past 10 days, has your child or anyone at home tested positive from a COVID-19 test or are waiting for results of COVID-19 test?
 No Yes
 4. In the past 14 days, has your child or anyone at home been in close contact with anyone while they had COVID-19 or waiting for COVID-19 test results?
 No Yes
 5. In the past 14 days, has your child or anyone at home visited a state with a COVID-19 New York State Travel Advisory?
 No Yes
- If the answer to any of these questions is “yes” the visit will be rescheduled. Teletherapy can be used during this time.

- If the provider is not able to reach the parent/guardian prior to the visit, the visit will be rescheduled.
- Staff will document family response in treatment note (i.e. Family replied no to Covid-19 questions prior to visit via text.)
- Exit the home immediately if any person is found to be ill within the home.

Masks / Face Coverings

- Use cloth or disposable face coverings to prevent asymptomatic spread of the disease and provide protection when social distancing measures are difficult to maintain. Your mask and/or clothing must be changed between visits if soiled. Cloth masks must be washed daily.
- For services such as Speech which may require the child to visualize modeling or mimicking, a face mask that is transparent at or around the mouth will be used.
- Little Lukes will provide a washable face mask for each staff member.
- Early Intervention and Preschool Service providers and evaluators are required to wear face coverings during the visit and any other Personal Protective Equipment (PPE) including but not limited to disposable gloves as needed for the services or evaluation.
- Face coverings are not required if wearing one would inhibit or otherwise impair an individual's health.
- Children under the age of two are not required to wear a face covering.
- Preschool children should wear face coverings, as tolerated.
- All household members over the age of 2 that cannot maintain social distance of at least 3ft. during the visit must wear a face covering, unless wearing one would inhibit or otherwise impair an individual's health.

Limiting Cross Contamination

- Staff may request that children use toys or safe household items that are within the home or location.
- The parent/guardian will be asked to use their own pen to sign and complete any printed forms.
- If the parent uses the iPad to sign forms, staff will use an alcohol wipe to sanitize the iPad before and after the parent uses the iPad.
- If provider needs to touch a child, alcohol-based hand sanitizer with at least 60% alcohol will be utilized before and after each interaction.

Session/Evaluation Area Guidelines

- Ask the family if the visit can be conducted outside.
- If the visit cannot be conducted outside, ask to conduct the session by an open window for increased ventilation.
- Sanitize the space to be used within the home or daycare prior to beginning the session. Use disinfectant, cleanser or wipes appropriate for the surface.
- If in a daycare setting, use approved OCFS cleaner provided by center.
- Require that only one parent/guardian/caregiver participate in the session with no other adults in the same room or outdoor space.
- Maintain a distance of at least 3 feet between yourself and the child/parent/guardian/caregiver to the greatest extent possible.
- Minimize physical contact with the child and frequently touched surfaces in the home.

- Wash hands prior to and after each home visit with soap and water for at least 20 seconds or use alcohol-based hand sanitizer with at least 60% alcohol.
- Avoid touching eyes, nose, and mouth.

Hand Hygiene

- Providers, children and anyone participating in the visit must practice good hand hygiene to help reduce the spread of COVID-19.
- Staff should request parent and child to wash hands prior to the start of the visit.
- Hands should be washed with soap and water for at least 20 seconds before and after each visit, before and after all individual contact, after contact with potentially infectious material, and before putting on and after removing PPE, including facemask and gloves.
- Hand hygiene after removing PPE is particularly important, to get rid of any germs that might have been transferred to bare hands during the removal process.
- Soap and water should be used if hands are visibly dirty.
- If soap and water are not immediately available, an alcohol-based hand sanitizer containing at least 60% alcohol, may be used.

Training

- Little Lukes will provide training to all new staff on protocols and communicate safety guidelines. Social distancing and face coverings will be required for all participants if training or meeting is conducted in person.
- Current staff will be provided copies of new protocols and safety guidelines and offered the opportunity to ask questions.

Plans for Illness or Suspected Illness

Children and staff will follow the ***New York State Department of Health (NYSDOH) Pre-K to Gr 12 COVID-19 Toolkit – February 2021 - NYSDOH COVID-19 In-Person Decision Making Flowchart*** and decisions of the local Oswego County & Onondaga County Health Departments.

Proactive Plan for Children Who Are Sick

The proactive plan for children who are or may be sick includes:

1. Child exhibits symptoms without a positive COVID-19 test
2. Child tests positive for COVID-19
3. Child without symptoms in close contact with someone who has tested positive for COVID-19
4. Child returning to services after testing positive for COVID-19
5. Child returning to services after Declining Test for COVID-19

Child Exhibits Symptoms Without a Positive COVID-19 Test

- People who have symptoms that cannot be explained due to a known health condition (such as asthma, allergies), may have Covid-19:
 - Fever (greater than 100.0°F)
 - Feel feverish or have chills

- Cough
- Loss of taste or smell
- Fatigue/feeling of tiredness
- Sore throat
- Shortness of breath or trouble breathing
- Nausea, vomiting, diarrhea
- Muscle pain or body aches
- Headaches
- Nasal congestion/runny nose
- If a child is exhibiting one or more of these symptoms listed upon arrival that cannot be explained due to a known health condition (such as asthma, allergies), the session or evaluation will be cancelled. The child will be able to return to in-person services when:
 - They are seen by a doctor for evaluation of symptoms and the doctor either recommends a COVID-19 test or gives an alternate diagnosis explaining the symptoms.
 - If a COVID-19 test is recommended the child will be able to return based on the criteria for a positive test outlined below or the following criteria for a negative test:
 - Proof of the negative COVID-19 test **AND**
 - Child's symptoms are improving **AND**
 - Child is fever-free for at least 24 hours without the use of fever reducing medicines.
- If child is exhibiting one or more of the additional symptoms listed during the session or evaluation that cannot be explained due to a known health condition (such as asthma, allergies), the services or evaluation will immediately end. The child will be able to return to in-person services when:
 - They are seen by a doctor for evaluation of symptoms and the doctor either recommends a COVID-19 test or gives an alternate diagnosis explaining the symptoms.
 - If a COVID-19 test is recommended the child will be able to return based on the criteria for a positive test outlined below or the following criteria for a negative test:
 - Proof of the negative COVID-19 test **AND**
 - Child's symptoms are improving **AND**
 - Child is fever-free for at least 24 hours without the use of fever reducing medicines.

Child Tests Positive for COVID-19

- Child will be offered teletherapy until cleared to return to in-person sessions per policies.
- We will cooperate with local health department on tracing and assist as requested.

Child Without Symptoms in Close Contact with Someone who has Tested Positive for COVID-19

If a child is designated as a contact of a person who tested positive for COVID-19 by a local health department, they may return to in-person services when the health department releases them from quarantine (at least 10 days).

Child Returning to Services after Testing Positive for COVID-19

- A child with confirmed COVID-19 may return to in-person services when:
 - The health department has released them from isolation, which is typically:
 - 10 days after symptom onset, **AND**
 - Improvement in symptoms (e.g., cough, shortness of breath) **AND**
 - Fever-free for at least 72 hours without the use of fever reducing medicines
- A child with confirmed COVID-19 who has not had any symptoms may return to in-person services when:
 - At least 10 days have passed since the date of their first positive COVID-19 viral test **AND**
 - Have had no subsequent illness **AND**
 - Are exhibiting no signs of illness

Child Returning to Services after Declining Test for COVID-19

- A child with symptoms that cannot be explained due to a known health condition with documentation from a medical professional (such as asthma, allergies) will be excluded from in-person services. If the parent declines to have a child visit the doctor and be tested for COVID-19 despite symptoms, the child will be able to return to in-person services when:
 - The health department has released them from isolation, which is typically when:
 - At least 10 days have passed since date of first symptoms; **AND**
 - Child's symptoms are improving; **AND**
 - Child is fever-free for at least 72 hours without use of fever reducing medications.

Proactive Plan for Employees Who are Sick

The proactive plan for employees who are or may be sick includes:

1. Employee exhibits symptoms without a positive COVID-19 test.
2. Employee tests positive for COVID-19
3. Employee without symptoms in close contact with someone who has tested positive for COVID-19
4. Employee returning to work after testing positive for COVID-19

Employees will submit doctor note or testing results and any health department documentation to hr@littlelukes.com and cc: abby@littlelukes.com.

Employee Exhibits Symptoms Without a Positive COVID-19 Test

- People who have symptoms that cannot be explained due to a known health condition (such as asthma, allergies), may have Covid-19:
 - Fever (greater than 100.0°F)
 - Feel feverish or have chills
 - Cough
 - Loss of taste or smell

- Fatigue/feeling of tiredness
- Sore throat
- Shortness of breath or trouble breathing
- Nausea, vomiting, diarrhea
- Muscle pain or body aches
- Headaches
- Nasal congestion/runny nose
- If employee is exhibiting one or more of these symptoms listed at home that cannot be explained due to a known health condition (such as asthma, allergies), they will not report to work. The employee will be able to return to work when:
 - They are seen by a doctor for evaluation of symptoms and the doctor either recommends a COVID-19 test or gives an alternate diagnosis explaining the symptoms.
 - If a COVID-19 test is recommended the employee will be able to return based on the criteria for a positive test outlined below or the following criteria for a negative test:
 - Proof of the negative COVID-19 test **AND**
 - Employee's symptoms are improving **AND**
 - Employee is fever-free for at least 24 hours without the use of fever reducing medicines.
- If employee is exhibiting one or more of these symptoms listed while at work that cannot be explained due to a known health condition (such as asthma, allergies), the employee will immediately notify their direct supervisor and go home. The employee will be able to return to work when:
 - They are seen by a doctor for evaluation of symptoms and the doctor either recommends a COVID-19 test or gives an alternate diagnosis explaining the symptoms.
 - If a COVID-19 test is recommended the employee will be able to return based on the criteria for a positive test outlined below or the following criteria for a negative test:
 - Proof of the negative COVID-19 test **AND**
 - Employee's symptoms are improving **AND**
 - Employee is fever-free for at least 24 hours without the use of fever reducing medicines.

Employee Tests Positive for COVID-19

- Little Lukes will contact and cooperate with local Health officials to communicate with affected families and staff that a Positive COVID-19 case has been determined.

Employee Returning to Work after Testing Positive for COVID-19

- An employee with confirmed COVID-19 may return to work when:
 - The health department has released them from isolation, which is typically:
 - 10 days after symptom onset, **AND**
 - Improvement in symptoms (e.g., cough, shortness of breath) **AND**
 - Fever-free for at least 72 hours without the use of fever reducing medicines

- An employee with confirmed COVID-19 who has not had any symptoms may return to work when:
 - At least 10 days have passed since the date of their first positive COVID-19 viral test **AND**
 - Have had no subsequent illness **AND**
 - Are exhibiting no signs of illness

Employee Without Symptoms in Close Contact with Someone who has Tested Positive for COVID-19

- If an employee is designated as a contact of a person who tested positive for COVID-19 by a local health department, they may return to work when the health department releases them from quarantine (at least 10 days).

Criteria for Fully Vaccinated Individuals

- Individuals who have been exposed to COVID-19 and are fully vaccinated against COVID-19 do not need to quarantine, if the following criteria are met:
 - Are fully vaccinated (i.e., ≥ 2 weeks following receipt of the second dose in a 2-dose series, or ≥ 2 weeks following receipt of one dose of a single-dose vaccine) **AND**
 - Have remained asymptomatic since last COVID-19 exposure.
- Individuals who have been exposed to COVID-19 and are fully vaccinated against COVID-19 should get tested 3-5 days after exposure, even if asymptomatic, and wear a mask indoors in public for 14 days following exposure or until they test negative.

Criteria for Individuals Recovered from COVID-19

- Asymptomatic individuals who have been exposed to COVID-19 and have previously been diagnosed with laboratory confirmed COVID-19 and have since recovered, are not required to quarantine within 3 months after the date of symptom onset from the initial SARS-CoV-2 infection or date of first positive diagnostic test if asymptomatic during illness.
 -

Suspect or Confirmed COVID Cases -

- *Emergency Response* – If child or family member have symptoms of illness, the session is ended, and staff leave the session location promptly. Staff with symptoms of illness are to go home immediately.

Contact Tracing

Public Health Officials assume the task of contact tracing, once notified.

Information and Testing

Little Lukes will assist staff and families to find a testing site and referral to health department for information & assistance:

- Onondaga County Testing Sites & Appointments: https://covid19.ongov.net/appointments/Register_online or call Upstate Medical University's COVID-19 Hotline at 315.464.2582 and select option #0.

- Oswego County Testing Sites & Appointments:
 - https://health.oswegocounty.com/information/2019_novel_coronavirus/index.php
- Oswego County COVID-19 Hotline: call [315-349-3330](tel:315-349-3330) for information about Covid-19.
- New York State DOH COVID-19 Hotline: call [1-888-364-3065](tel:1-888-364-3065) for information about Covid-19.
- Upstate University Hospital's Regional Triage Line for COVID-19 (available from 7 a.m. - 11 p.m.): call [315-464-3979](tel:315-464-3979) for information about Covid-19.
- New Yorkers can call the COVID-19 Emotional Support Hotline at [1-844-863-9314](tel:1-844-863-9314) for mental health counseling.
- Fulton & Central Square Urgent Care -with Dr. script, 24 hours, not an urgent care visit. Those with symptoms, following doctor’s evaluation/exam.
- Oswego WellNow & Pulaski Urgent Care. Rapid Test 1 hour, need appointment. WellNow urgent care needs appt – midnight night before to book spot. Pulaski call when open.
- Rome Rapid Testing <https://www.primaryurgentcare.com/walk-in-services/covid19-rapid-result-testing/>

Session Schedules

Itinerant Services	Monday – Friday per IEP
Parent Choice of In-Person Session	In IEP location (home, daycare, school)
Parent Choice of Remote Learning	Remote Learning (Teletherapy sessions)
Hybrid Model	Alternating in-person and remote teletherapy

Teaching and Learning

EARLY INTERVENTION

Early Intervention services will continue either in person or remotely with teletherapy. The setting is based on the decision of each County’s Early Intervention Program, the provider and the family. All three parties must agree to in-person services. Services are provided based on the child’s IFSP.

PRESCHOOL RELATED SERVICES

Preschool Related Services will continue either in person or remotely with teletherapy. The setting is based on the decision of the child’s home school district, the provider and the family. All three parties must agree to in-person services. Services are provided based on the child’s IEP.

EVALUATIONS

Evaluations will be available either in person or remotely with teletherapy. The setting is based on the decision of each county for Early Intervention or the child's home school district for preschool, the evaluator and the family. All three parties based must agree to in-person evaluation to hold evaluation in person.

Little Lukes has temporary evaluation space available for Little Lukes evaluations upon request. Special safety procedures including a separate entrance, health screening and cleaning procedures are required.

This decision is also based on the region's health conditions and guidance from the local health department.

IN-PERSON LEARNING & THERAPY SERVICES

- Little Lukes will offer in-person learning and therapy sessions for all children in the program as much as possible.
- In-person instruction is prioritized for these students based on age and special needs.
- If a parent decides to change from in-person learning and therapy services to remote learning and therapy services parent will notify therapists at least 1 day in advance to begin to schedule teletherapy services and complete consent forms for teletherapy.
- Staff with a high-risk condition or family member at high risk may contact HR at hr@albertsgroup.net with details of request for accommodations.
- If in-person sessions are cancelled temporarily (example for illness or quarantine) for more than 2 days, Little Lukes will offer to switch to TeleTherapy services until in-person services may resume.

REMOTE LEARNING & THERAPY SERVICES

- If regional health needs or other factors determine that remote learning and therapy services is required for all children, Little Lukes will provide remote teletherapy services based on the services as outlined in the child's IFSP or IEP.
- Little Lukes will accommodate parent request for remote instruction and learning for children.
 - Parents may elect to keep services remote due to medical issues or other at-risk family member(s) in the household.
 - Parents of children must communicate this decision with the therapists and sign parental forms as requested.
 - Therapy staff, teachers and Program Coordinators will document parent conversations regarding their decision to participate in programs remotely or in-person.
Documentation will be saved in the child's file.
- For parents deciding to do teletherapy during this time, Little Lukes will offer teletherapy for special education and any related services (speech therapy, occupational therapy and physical therapy) listed in child's IFSP or IEP.

- Parents will participate in scheduling teletherapy and a responsible adult will be present during all teletherapy sessions to keep the child engaged.
- Provider and parent will discuss available household items and toys such as playdoh, cheerios and puzzles to incorporate into teletherapy sessions.
- To change from remote to in-person services will require at least a 2-day notice and approval as noted under Teaching and Learning section of this plan.

HYBRID LEARNING & THERAPY SERVICES

- If regional health needs or other factors determine that a hybrid model of learning is required for children, Little Lukes will provide a combination of in-person and remote teletherapy services based on the services as outlined in the child’s IFSP or IEP.
- In a hybrid learning model, services will alternate from in-person learning and services on week A and then remote learning and services on week B.
- Little Lukes will follow all guidelines set forth in this document during in-person and remote teletherapy instruction and services.
- If parents opt-in to teletherapy instruction and services for remote weeks, services will be scheduled based on the availability of the therapist or teacher.

Special Education

Little Lukes plan provides a framework to ensure that all children with disabilities continue to have available to them a free appropriate public education (FAPE) that emphasizes special education and related services designed to meet their unique needs and prepare them for further education in the least restrictive environment (LRE). In consideration of the health, safety, and well-being of children, families, and staff, our plan is designed to enable transitioning between in-person, remote, and hybrid learning environments to ensure the provision of FAPE consistent with the changing health and safety conditions that exist.

Special education programs and services of Little Lukes provide equity and access for students with disabilities to be involved in and to participate and progress in the general education curriculum with access to the necessary accommodations, modifications, supplementary aids and services, and technology (including assistive technology) to meet the unique disability related needs of students. While not all formats allow for maximum benefit to students, these programs and services can be provided in all formats (live-person, hybrid, or remote). Little Lukes will document the programs and services offered and provided to students with disabilities as well as the communications with parents in their preferred language and mode of communication. Little Lukes will ensure access to the necessary accommodations, modifications, supplementary aids and services, and technology (including assistive technology) to meet the unique disability related needs of students for in-person services and to the maximum extent possible for remote or hybrid services.

Little Lukes is committed to providing meaningful parent engagement regarding the provision of services to his/her child to meet the requirements of the IDEA. Further, we will maintain regular communication with the parents/guardians and other family members to ensure that they are engaged in their children’s education during the reopening process

Little Lukes will plan and support collaboration between the committees on preschool special education (CPSE) and committees on special education (CSE) and program providers representing the variety of settings where students are served to ensure there is an understanding of the provision of services consistent with the recommendations on individualized education programs (IEPs), plans for monitoring and communicating student progress, and commitment to sharing resources.

Little Lukes will maintain records to document the implementation of each IEP. The documentation will include meeting all SED regulations

For information about meaningful parent engagement regarding the provision of services to a child to meet the requirements of the IDEA, visit the *Communication/Family and Community Engagement section* of our reopening plan.

Staffing

Certification and Licensure

All teachers will hold valid and appropriate certificates for teaching assignment, except where otherwise allowable under the Commissioner’s regulations or education law. All therapists will hold valid certification or licensure.
