

Post-Doctoral Research Fellow

[Oklahoma State University—Center for Health Sciences \(OSU-CHS\)](#), Tulsa, Oklahoma invites applications for a one to four year HIV and/or LGBTQ health post-doctoral research fellow under the direction of [Dr. Randolph Hubach](#). Located near downtown Tulsa, OSU-CHS houses the OSU College of Osteopathic Medicine and graduate programs in biomedical sciences, forensic sciences, public health, health care administration and athletic training. The successful candidate should be capable of conducting multivariate analyses to address questions related to health disparities experience by people living with HIV (PLHIV), those at risk for HIV, and LGBTQ people. Candidates should have proven experience in data collection and intervention work. Available secondary data includes electronic health records of OSU-CHS Internal Medicine Specialty Services—Ryan White Clinic, and shared data resources from collaborative data based projects within the Sexual Health Research Lab at OSU.

This is a full-time position and the appointment will be for one year, with the option to renew. It is hoped that in the course of the program, the fellow will initiate applications for independent funding through a range of local, regional, and national sponsors.

Fellow Requirements

- PhD, ScD or equivalent degree in Public Health, Health Behavior Research, Social or Behavioral Epidemiology, or Health Services Research
- Demonstrated methodological skills, with a strong commitment to an academic career as a researcher
- Demonstrated cultural competence in working with underserved, HIV-infected and/or high risk, and/or LGBTQ, and culturally diverse populations
- Experience with qualitative methods and Internet-based research is preferred

Responsibilities

- Collect and analyze data from existing data resources from OSU-CHS clinics or the Sexual Health Research Lab, under the mentorship of faculty
- Work closely with faculty to present research findings at scientific meetings and prepare articles for publication in peer-reviewed journals
- Develop an independent program involving translational HIV and/or LGBTQ health research
- Work closely with the existing activities at OSU-CHS, the Sexual Health Research Lab, and the Center for Rural Health

To Apply

Applicants should email application materials to Dr. Randolph Hubach (Randolph.Hubach@okstate.edu). Applications should include a CV and a cover letter explaining fit with this position, research experience, career objectives, two reference letters, and a representative publication of the applicant's work. Consideration of applications will begin immediately until the position is filled.
