

# Fix-It Freshman Class of 2021

Thank you to all of the parent volunteers who made Homecoming 2018 such a success. All of the supplies, food and time were much appreciated. The kids had a great time building the float, designing the posters and painting the rock.

A special thank you goes out to Roger and Isabelle Mason for hosting the float parties at their house. The kids couldn't have done it without you!

Check out how much fun the kids had building the float!
