

My Doctor's Visit

a social story by:

[Click here & someone from the NYT team will promptly contact you.](#)

I am at the doctor's office.

I have to wait until the nurse calls my name.

I can sit on the chair and read a book or play with toys while I wait.

When it is my turn, the nurse will measure my weight on the scale.

The nurse might also take my temperature and blood pressure.

I will then go to the exam room and wait for the doctor.

The doctor will check my body.

Here is my checklist for the doctor's visit.
When I get all the checks, the visit is done

 Doctor Checkup				
1	2	3	4	5
 get weighed	 take blood pressure	 take temperature	 look in eye	 look in ear
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6	7	8	9	10
 look in mouth	 take deep breath	 listen to chest	 all done	 great job
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

When I am done, I can pick a sticker for doing a great job at the doctor's office.

OUR PROGRAM

- Direct Behavior Therapy
- Parent / Family Training
- Social Skills Groups
- Services offered in our ABA clinics, home, community & school

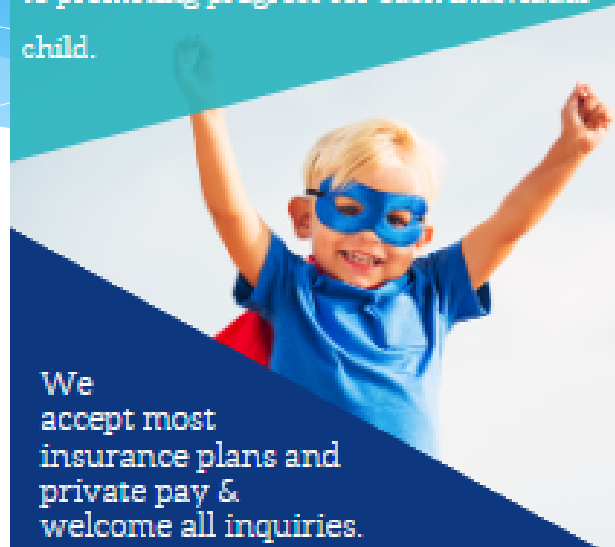

BEHAVIOR SERVICES

Click here & someone from the NYT Behavioral team will promptly contact you.

OUR MISSION...

is to provide children with autism the support they need to live successful, productive and happy lives. Our therapists are highly qualified, passionate & dedicated to promoting progress for each individual child.
