**Connect with our future workforce!**

**Participation in both events is**

**STRONGLY encouraged**

**[See back of this flyer for more information](#)**

The objective of these events is to connect students with reps from area business and industry who can help them relate their school-based learning with the skills required for workplace success.

This is not a Job Fair, but rather, an educational opportunity. Additionally, reps from universities, technical colleges, building trades and the armed forces will be on hand to discuss degree programs and other learning opportunities to support career choices. It is a great opportunity to connect with the workforce of the future.

Each student attending the events will be carrying a “passport” that must be stamped when they visit an employer booth. These passports are meant to initiate quality conversations in order to gather useful information from business/educational organizations. Please bring along something with the name of your company that can be posted in the passport.

Please click on the links below, complete the information requested and then click submit. We encourage participation in both events. If you plan to participate in both events, we ask that you complete BOTH registration forms.
