HVAC Maintenance Technician and HVAC Install Technician

Apprenticeship Opportunities

Green Valley Cooling & Heating has been serving the southern Arizona community for more than 50 years specializing in residential HVAC system design, replacement, service, maintenance and indoor air quality. We started as a one-man operation in 1968 and we are now a woman-led organization with almost 50 team members.

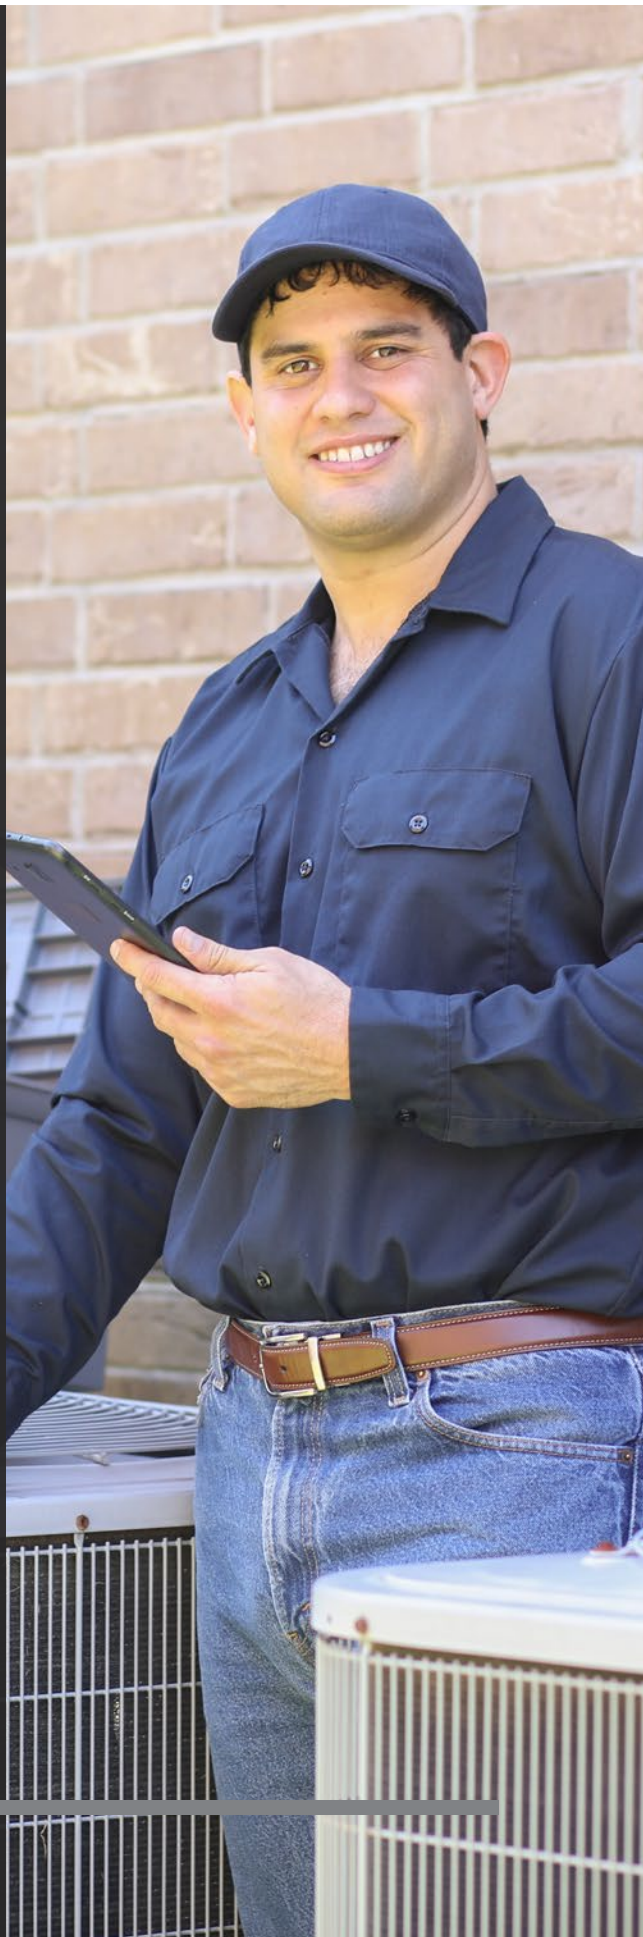

We believe in promoting from within and growing employees over time and this apprenticeship provides that opportunity.

Program Details:

- Apprentice will be mentored by journey workers on-the-job
- Apprentice must complete 144 hours of RTI (Related Training Instruction) a year (Pima College's HVAC program courses)
- The apprenticeship will be four years long (8,000 hours)
- Apprentice will be eligible for tuition assistance to cover tuition costs
- If minimum skills are met, the apprentice will receive an annual wage progression for the duration of the registered apprenticeship
- Upon completion, the apprentice will earn a Heating, Ventilation, Air Conditioning and Refrigeration (HVAC-R) Certificate from Pima Community College, National Occupational Credential and a National Journey Worker Card.

This is a registered apprenticeship opportunity offered through the Pima Community College Employer Engagement and Career Services/Apprenticeship Office.
