

Enlist E3[®] soybeans 2021 yield data

The folks at Farmers' Independent Research of Seed Technologies (FIRST) were kind enough to provide us with the national performance results for the 2021 season. Many of you have likely already seen the results in your area, but we wanted to see how genetics with the Enlist E3[®] soybean trait performed across the nation. We've included a summary of our findings below.

DATASET

13 STATES | **100** LOCATIONS

RESULTS: GENETICS WITH THE ENLIST E3 TRAIT

2X MORE TOP 3 FINISHES **VS** **#2** TRAIT

The foregoing is provided for informational use only. Please contact your sales professional for information and suggestions specific to your operation. Product performance is variable and depends on many factors, such as moisture and heat stress, soil type, management practices and environmental stress, as well as disease and pest pressures. Individual results will vary.
