

# PowerCore® Enlist® corn program approach

When used as part of a program approach that incorporates multiple modes of action, PowerCore® Enlist® corn lets you customize your herbicide program to fit your acres, with greater flexibility for postemergent application and maximum versatility against herbicide-resistant weeds.

## Application timings

- Start clean, stay clean.
- Incorporate Enlist® herbicides as an additional postemergence mode of action on the corn acre.
- Control weeds when they're most manageable—no larger than 6 inches.
- PowerCore Enlist corn will offer the greatest post herbicide flexibility in the marketplace.
- Greater ability to customize your herbicide program to fit your field acre.
- PowerCore Enlist corn offers the most versatility for managing herbicide-resistant weeds.

™ ® Trademarks of Corteva Agriscience and its affiliated companies. Enlist Duo® and Enlist One® herbicides are not registered for sale or use in all states or counties. Contact your state pesticide regulatory agency to determine if a product is registered for sale or use in your area.
