

McKinney High School

Although it cannot be known from specific data whether the relationship between participation in extracurricular activities and success in school is causal, and although degree or intensity of participation is not measured, it is clear that participation and success are strongly associated as evidenced by participants' better attendance, higher levels of achievement, and aspirations to higher levels of education. Our goal as an MHS family is to ensure all students have the opportunity to be a part of something that matters to them, to build a relationship with the sponsor and peers, and to create that accountability partner to be successful. If you are interested in any of the clubs or activities below, contact their sponsor. Get involved early.

Group Name	Group Sponsor	Email
