

OCTOBER 2019

CORPGUARD GROUP, A SECURITY AND DEFENSE COMPANY, CONFIRMS ITS ISO 18788 CERTIFICATION

The security Company CORPGUARD GROUP confirms its ISO 18788 certification after a verification audit conducted in July 2019 by the independent company APAVE.

That makes CORPGUARD the 3rd French private security company to hold this certification. This Lyon based company, also specialized in business and corporate intelligence, confirms its ambition to be an international security player committed to respecting international standards in terms of good governance and mastering of operational and methodological knowledge.

Since 2006, CORPGUARD GROUP and its subsidiaries « *Corpguard Intelligence* », « *Corpguard Protection* » and « *Corpguard Defense* » offer their clients cross-disciplinary services in the field of economic security.

Inquiries and investigations, business intelligence and lobbying, international mobility security and crisis management : these services meet legal obligations and ethical imperatives of protecting the human resource. These guarantees allow Corpguard to assist its clients in the success of their development project in a context of economic war and deteriorated security environment.

The ISO 18777 certification attests the mastering of a security operations management system. It is focused on three key principles :

- Employees, consultants, services providers and suppliers of CORPGUARD respect the human rights, and the international and the French legal obligations,
- The protection of employees, consultants, services providers and clients,
- The satisfaction of the clients's interests (confidentiality, monitoring, performance evaluation...).
