2019 Charity Ball

Who: CHI St. Alexius Health Williston Foundation

What: 2019 Charity Ball *“Magic in the Moonlight”*

When: September 27, 2019 from 5-11p.m.

Where: The Well at Williston State College 1410 University Ave, Williston, ND 58801

Why: The Foundation’s annual formal fundraising event is an instrumental source of funding for CHI St. Alexius Health Williston’s programs and projects. With proceeds from last year, we were able to purchase a portable digital x-ray machine and a new lab analyzer. This year, proceeds will go toward our efforts to fully upgrade to digital radiography.

This “magical” evening includes cocktails, dinner and live entertainment with Mentalist Sean Bott. This comedic mind reader will leave attendees with an unforgettable experience! Live and silent auctions with great items to bid on such as trips, art, MN Viking tickets, jewelry and more allow attendees a fun way to support their local community hospital. Live Music provided by the band Judd Hoos will conclude the evening.

Special thanks to our sponsors: Valley Med Flight, Patriot Well Solutions, KLE Construction, ONEOK, Noble Casing, City of Williston, KUMV-TV, API- Williston Basin Chapter, plus numerous table sponsors.

Join us September 27 for ‘Magic in the Moonlight’ – our 2019 Charity Ball. Sponsorships and tickets are still available. They can be purchased online at <https://www.chistalexiushealth.org/williston-foundation/charity-ball> or by calling 701.774.7404.

About

CHI St. Alexius Health Williston is a 25-bed critical access hospital located in Williston, North Dakota. It was founded in 1920 by the Sisters of Mercy to provide quality health care to the growing population of the region. Today, we provide a full range of clinic and hospital services including: Primary Care, Women’s Health, Pediatrics, Orthopedics, Urology, and General Surgery. In addition, the Leonard P. Nelson Cancer Center, featuring state-of-the-art radiation and chemotherapy treatment, along with the Pain Clinic, Dialysis and Sleep Lab programs serve patients from a large area of North Dakota and Montana.
