

WILLISTON AREA CHAMBER OF COMMERCE

November 9th, 2020

Williston Area Chamber of Commerce partners with CHI St. Alexius Health Williston to provide masks to Small Businesses.

CHI St. Alexius Health Williston has provided masks to the Williston Area Chamber of Commerce which will be distributed to small businesses ahead of the busy holiday shopping season and Small Business Saturday. The Chamber will distribute masks to retailers in the coming week.

"Supporting our small and locally owned small businesses is vital to our local economy and we hope that distributing masks to small business owners and employees will help to ensure that shopping local can continue in a safe way this holiday season," says Chamber President, Rachel Richter Lordemann. "We want to thank CHI St. Alexius Health for their donation of reusable cloth masks to help us keep our business community safe."

"Wearing a mask is vital to stopping the spread of COVID-19." said CHI St. Alexius Health Williston Marketing Manager, Dubi Cummings. "Providing cloth masks to small businesses is just one more way we can give back and contribute to the safety of our community outside our hospital walls."

Chamber employees will be visiting businesses the week of November 9th to distribute masks, signage, and mask usage information. If you are not visited, and are in need of masks for your employees, please contact the Chamber at 701.577.6000 or email wchamber@willistonchamber.com.
