

## Stay Calm but Remain Vigilant to Stop the Spread of COVID 19

Hyde County is currently listed as a critical community spread county by the NC DHHS County Alert System. As of January 15th the active number of cases has reached 144. Likely, this increase in cases is a result of multiple incidents, such as gatherings over the holidays, and an increase in viral spread simply from community gatherings. The safest way to protect yourself is to avoid unnecessary gatherings of people you do not live with, wear a facial covering when you are in public, practice social distancing of 6 feet or more, and wash your hands frequently.

In an effort to protect our staff and our citizens from the continued spread of this virus, we are restricting access to some offices and encouraging everyone to take advantage of other ways to do business including over the phone, online and via no contact drop off. These changes will remain in effect until further notice. Hyde County Government services can be accessed as follows:
