11:00a	11:30a	Product Show Break – Sandia Ballroom	
ROOM NAME		Sandia Ballroom I-IV	
11:30a	12:45p	Program 2A Luncheon & Keynote Presentation BIM - Sandia Ballroom Traditional vs The Next Process. The latest way to design, bid, win and build projects. Details our addiction to antiquated delivery methods, silo responsibilities and outdated business workflows; stifling necessary progress. Regardless how we feel about technology, the generations taking our place insist on it. Construction is the most important industry in the world, without it nothing exists. If we do not change, the labor shortage increases and our basic needs, shelter and public resources suffer. It's no longer a question of if we adapt or when. There are no more questions, just action. <i>Speaker: Jennifer Lanzetti, LEED AP, CM-BIM, Cn3D Construction</i>	
12:45a	1:10p	Product Show Break – Sandia Ballroom	
		Technology Track : <i>Advancing design and construction through incorporating 'tangential' technologies</i>	Sustainability Track : <i>Innovations in support of sustainable performance</i>
