

COMMBUYS Upgrade June 12, 2021

The Operational Services Division is working with our COMMBUYS SaaS provider to install the next quarterly updates to the system, among them a new look for the COMMBUYS home page.

Although COMMBUYS will be sporting a new Commonwealth look and feel, functionality and available resources remain the same:

- Log in and Register buttons at the top right
- Bid and Blanket searches via the top Search bar
- Links to frequently used Buyer and Vendor resources below the Welcome to COMMBUYS image
- Scroll down for Public Bulletins and Important Links, such as current Statewide Contract bidding opportunities, PPE purchasing resources, available PunchOuts, and other popular links

We continue to work with our provider to fine tune the home page to the needs of our buyer and vendor communities.

Additional Enhancements

- New bid status for Intent to Award vendors
- Additional commodity code refinements for approval path navigation
- Simplified import/export of requisition documents
- PunchOut purchasing for Apple mobile devices
- More robust Vendor Advanced Searches
- Open Bids searches by Category

Get details [here](#).

Note: Master Blanket Purchase Orders or Contracts uniformly will be referenced as Blankets in COMMBUYS.

If you have questions, please contact the [OSD Help Desk](#) at 888-MA-State.
