

# Is Your Fuel Contract Coming Up for Renewal?

**Why not give OSD the opportunity to compete for your business this time around?**

**Consider the following...**

- ✓ Unlike some consortium arrangements, **we don't charge a fee** to participate or use our contracts.
- ✓ **Our pricing is competitive**, taking full advantage of the vast quantities of fuel purchased by the Commonwealth to negotiate best value.
- ✓ OSD's **Statewide Contracts offer prompt pay discounts** (PPD), which vary by contract and by vendor. Refer to the Contract User Guide for PPD details.
- ✓ **Our vendors are vetted** at the time of award and through ongoing contract management activities to ensure reliability.
- ✓ **Fixed and variable rate options are available** for gas and diesel.
