

No-Cost Overview of ISO 9001:2015 Requirements

***Learn how your company can boost profits & augment efficiency
with an ISO Certification!***

The Northeastern Pennsylvania Industrial Resource Center (NEPIRC), an ISO 9001-registered company, would like to help you gain a competitive edge by becoming ISO certified. During this three-hour, **complimentary webinar**, you'll learn the requirements of ISO 9001:2015 and how this certification can provide several benefits to your bottom line. Please be advised, this seminar is only open to companies **not** currently certified in ISO 9001:2015.

Topics covered:

- Context, issues & strategic direction of ISO 9001:2015 Certified organizations
- Commitment required by organizational leadership
- Planning requirements for implementing a Quality Management System (QMS)
- Resource requirements for sustaining a QMS
- Planning, implementation & control of production processes
- Performance evaluation & measuring the effectiveness of a QMS
- Opportunities for process improvements

Outcome:

Participants will receive information on the benefits of receiving certification, as well as the extent of work required to bring their organization into conformance with the requirements of ISO 9001:2015 with minimal effort in modifying their existing QMS.

**This no-cost event will take place virtually via Microsoft® Teams on
Thursday, February 4th, 2021 from 8 to 11 a.m.**
