

## **NOTE ABOUT PRIVACY**

### **Your Information is your Information**

You have complete control over who can see your contact and personal information.

Contact information is never public or searchable on the Internet. **Any information you elect to make visible to your church family is always protected behind a login.**

Authorized users (staff & clergy) will always have access to your profile information.

For safety reasons, sharing contact and personal information for children under 18 is limited. Parents determine whether or not to display their child's name in the church directory.

Children under 13 may not participate and will not be able to sign in.

### **What People May See**

By default, the viewing of your contact and personal information is limited to members of groups you are in, group leaders, users with permission, and administrators. If you choose to, however, you can make your information visible to the entire church. But if you prefer to be more private, you can customize how people see specific information.

Contact information: Name, Address, Phones, and Email.

Personal Information: Marital Status, Family Position, Member Status, but you also have the option of sharing your birthday, gender, allergy information, and skills with people in your church.

\*If you are a group leader or host an event, certain contact information may be visible regardless of the settings you choose.

### **Privacy Settings**

**Everyone**— Like a church directory listing, everyone in our church will be able to see whatever profile information is marked as visible to everyone.

**My Groups + Group Leaders + Users with Permission**— This setting means information will only be shared with the people you are involved with at church. This is the default setting.

**Group Leaders + Users with Permission**— You would use this setting if you wanted to keep some profile information hidden from anyone who is not a group leader or a user with permission to view profiles.

Users with Permission Only— **This setting effectively removes you from the church directory.** Your information will only be available to authorized users.\*\*

**Custom Privacy**—Choose different privacy levels for specific contact fields and personal information. You can do this in two places: when you edit your profile information or when you manage your privacy settings.\*\*\*

\*\*While you can hide the majority of your information from most of your church, you should know that, regardless of your settings, contact data will still be visible to certain people who work in our church.

\*\*\*The Directory page shows all individuals who have a login, along with individuals without a login who have been opted-in to the directory. Currently, individuals with a login cannot opt out of being listed in the directory.

## Family Privacy

A family member with a primary position such as "Head" or "Spouse" can change privacy settings for other members of the family and opt family members into the church directory. Birthdays are required for children (as a means to prohibit access), but it's up to you if you want to share the birth date with your church family.
