

SCHOLASTIC BOOK CLUBS ONLINE POP-UP SHOP,

This pop-up shop allows families to order books and have them shipped directly to their homes while still allowing their kids' teachers to earn Bonus Points for the classroom. This pop-up shop will be hosted on The Scholastic Store Online and has a unique URL:

www.scholastic.com/clubshop

This pop-up shop is stocked with special collections of books to keep kids engaged and reading. We're also curating titles that will help children share their feelings and help families manage the wide range of emotions throughout this crisis.

Not all Book Club items are available through this special pop-up shop. We apologize for any inconvenience this may cause.

The same log-in can be used. To sign in, customers can just hover their mouse over the profile icon in the top-right corner of the page and click Sign In.

- Parents or guardians who have not registered in the past can register on the site by clicking Register instead of Sign In.
- The Scholastic Store Online also has a Guest Checkout option: customers do not have to sign in or register to use their Scholastic Book Clubs Class Code as long as they enter and apply the code during checkout.

Customers will also be able to use any Scholastic Store coupons/promotions in addition to the Class Activation Code. Promotions should be entered in the cart. We apologize, but Scholastic Book Clubs coupons will not be redeemable through the pop-up shop. Please note that for book-only orders of \$25 or more, customers get free shipping.

In order for teachers to earn Bonus Points, families must enter their child's Class Code in the Promotions field on the Shopping Cart page before checking out. Bonus Points will be deposited 4-6 weeks from the order shipment date.

If parents are having shopping or checkout issues, they may call 1-800-770-4662. If there are other questions about The Scholastic Store Online, they may visit:

Please note that we are finding that some teacher's class codes were not loaded to the Club's Pop Up Shop so when parent's try to checkout using their teacher's code, its giving them an error message. The development teams are aware and are trying to load the remaining class codes. In the meantime, if a parent wants to check out, they can use the code CLUBS in the promo field and they will try and tie their order to their classroom teacher on the back-end.
