

A Connection for Community Change

NLDP Graduate Participation On Non-profit Boards

While non-profit board service is not a specific goal of NLDP, it is one measure of the impact that graduates of the program are having on the city, the region, and the state. To date, 25% of NLDP graduates are serving on one or more nonprofit boards. These individuals are bringing the leadership skills and tools they learned during their participation in NLDP to these organizations throughout the city. Through these connections, NLDP is having an even greater impact on the City of Cleveland.
